Q1 Do I need to have built ML projects before booking?

Projects help, but they are not compulsory. If you are a beginner, tell us and the expert will focus on fundamentals and learning projects.

Q2 Will there be live coding in the interview?

Yes, there can be short Python or ML coding questions, depending on the level and duration you choose. Keep your editor or notebook ready.

Q3 Can I choose a specific area like NLP or computer vision?

Yes. Mention your preferred area while booking so the expert can tailor the questions to it.

Q4 How long should my session be?

A 30-minute session suits a quick concept check, while 1 to 3 hours allows coding, project discussion and case questions in more depth.

Q5 What will I get after the interview?

You receive a PDF feedback report with 1-5 ratings for each criterion, your strengths, areas to improve and suggested next steps.

Q6 How long can the interview be?

From 30 minutes to 3 hours, in 30-minute steps. You choose the duration when you apply; the price follows it.

Q7 How do I pick a time?

The booking form shows the free start times from our experts' weekly availability (in IST) for the duration you choose. Once you pay, the slot is yours - no one else can book it.

Q8 How is the price worked out?

Session fee per hour x your duration, plus any add-ons: flat add-ons cost the same for any duration, per-hour add-ons follow your duration.

Q9 Can I use a coupon or iSure Coins?

Yes. A coupon valid for mock interviews discounts the session fee (not the add-ons), and you can pay part or all of the rest with iSure Coins. If they cover everything, no online payment is needed.

Q10

What do I need to share?

Your objective for the interview (role, company type, what you want to practise) and, optionally, your resume as a PDF so the expert can tailor the questions.
