01 · AT A GLANCE

Overview

Practise a live 1:1 mock interview on Python, Django or Flask, REST APIs, databases and frontend basics with an expert, and get a detailed feedback report.

This mock interview simulates a real full stack Python developer interview. You will face questions on core Python, backend frameworks like Django or Flask, REST API design, SQL and NoSQL databases, and frontend basics such as HTML, CSS, JavaScript and React. Your expert may also ask you to explain your project, read code, solve a small problem or discuss how you would design a simple application.

It is useful for final-year students, recent graduates, bootcamp learners and career switchers who are preparing for fresher or junior full stack roles. After the session you receive an AI-assisted PDF report with 1-5 ratings, strengths, areas to improve and clear next steps, so you know what to practise before your real interviews.

09 · QUESTIONS

Frequently Asked Questions

Q1 Which frameworks will the expert ask about?

Mostly Django or Flask, depending on your resume. You can tell us in advance if you use FastAPI or another framework.

Q2 Will I have to write code during the interview?

Yes, there may be a small coding or debugging task. It is usually shared on screen, so keep your editor ready.

Q3 Do I need to know frontend to book this?

Basic knowledge of HTML, CSS, JavaScript and one library like React is helpful, since this is a full stack role. The depth of questions matches your level.

Q4 How long should the session be?

A 30-minute session suits a quick project or topic review. One hour or more is better for a complete interview with coding and design questions.

Q5 What will I get after the interview?

You get a PDF feedback report with 1-5 ratings per criterion, strengths, areas to improve and next steps to follow.

Q6 Can I choose the topics to focus on?

Yes. Share your resume and focus areas while booking, and the expert will tailor the questions to your level and target role.

Q7 How long can the interview be?

From 30 minutes to 3 hours, in 30-minute steps. You choose the duration when you apply; the price follows it.

Q8 How do I pick a time?

The booking form shows the free start times from our experts' weekly availability (in IST) for the duration you choose. Once you pay, the slot is yours - no one else can book it.

Q9 **How is the price worked out?**

Session fee per hour x your duration, plus any add-ons: flat add-ons cost the same for any duration, per-hour add-ons follow your duration.

Q10 **Can I use a coupon or iSure Coins?**

Yes. A coupon valid for mock interviews discounts the session fee (not the add-ons), and you can pay part or all of the rest with iSure Coins. If they cover everything, no online payment is needed.

Q11 **What do I need to share?**

Your objective for the interview (role, company type, what you want to practise) and, optionally, your resume as a PDF so the expert can tailor the questions.

Q12 **Can I cancel?**

You can cancel from My Mock Interviews until an expert is assigned and get a full refund (iSure Coins go back to your wallet). If you miss a confirmed session, it counts as used and is not refunded.

Q13 **Will I get an invoice?**

Yes - an invoice for every payment, downloadable from My Payments and from your mock interview page.
